

ZF CFT-30

The ZF CFT-30 CVT is found in Ford's Five Hundred sedan and their Freestyle crossover.

CFT-30: These are cutting-edge CVT units that are beginning to arrive at transmission shops for repair, often requiring complete teardown.

Adapt-A-Case has created a new socket necessary to fully disassemble these units. CNC milled to perfection, this will be in your box for many years to come!

The Right Tool for the Job.
